This year we are **proud to support Kidscan Children's Cancer Research**. Will you join us in raising money for vital childhood cancer research?

Proud to Support  **Kidscan**
Children's cancer research

About Kidscan

This Christmas, children across the UK will spend Christmas in hospital fighting cancer. Of those who survive, 60% will suffer side effects that last a lifetime caused by the treatments used to save their lives.

From mobility issues to organ & bone problems, Kidscan are dedicated to eradicating these late-effects by finding safe new treatments for children with cancer.

Just £5 will fund 30 minutes of life saving research, giving hope to children like Charlotte, that better treatments are being found.

Thank You
